

Hard Milker :- Difficult Milking

Big Problems for animal owner

Hard Milker - Sometimes due to any fibrosis in teat interfere in milking

Hard Milker :-In this condition have to make more effort for milking

The main Reason of hard milker Fibrosis within the teat

Sometimes teat becomes hard like pencil so we also called it....

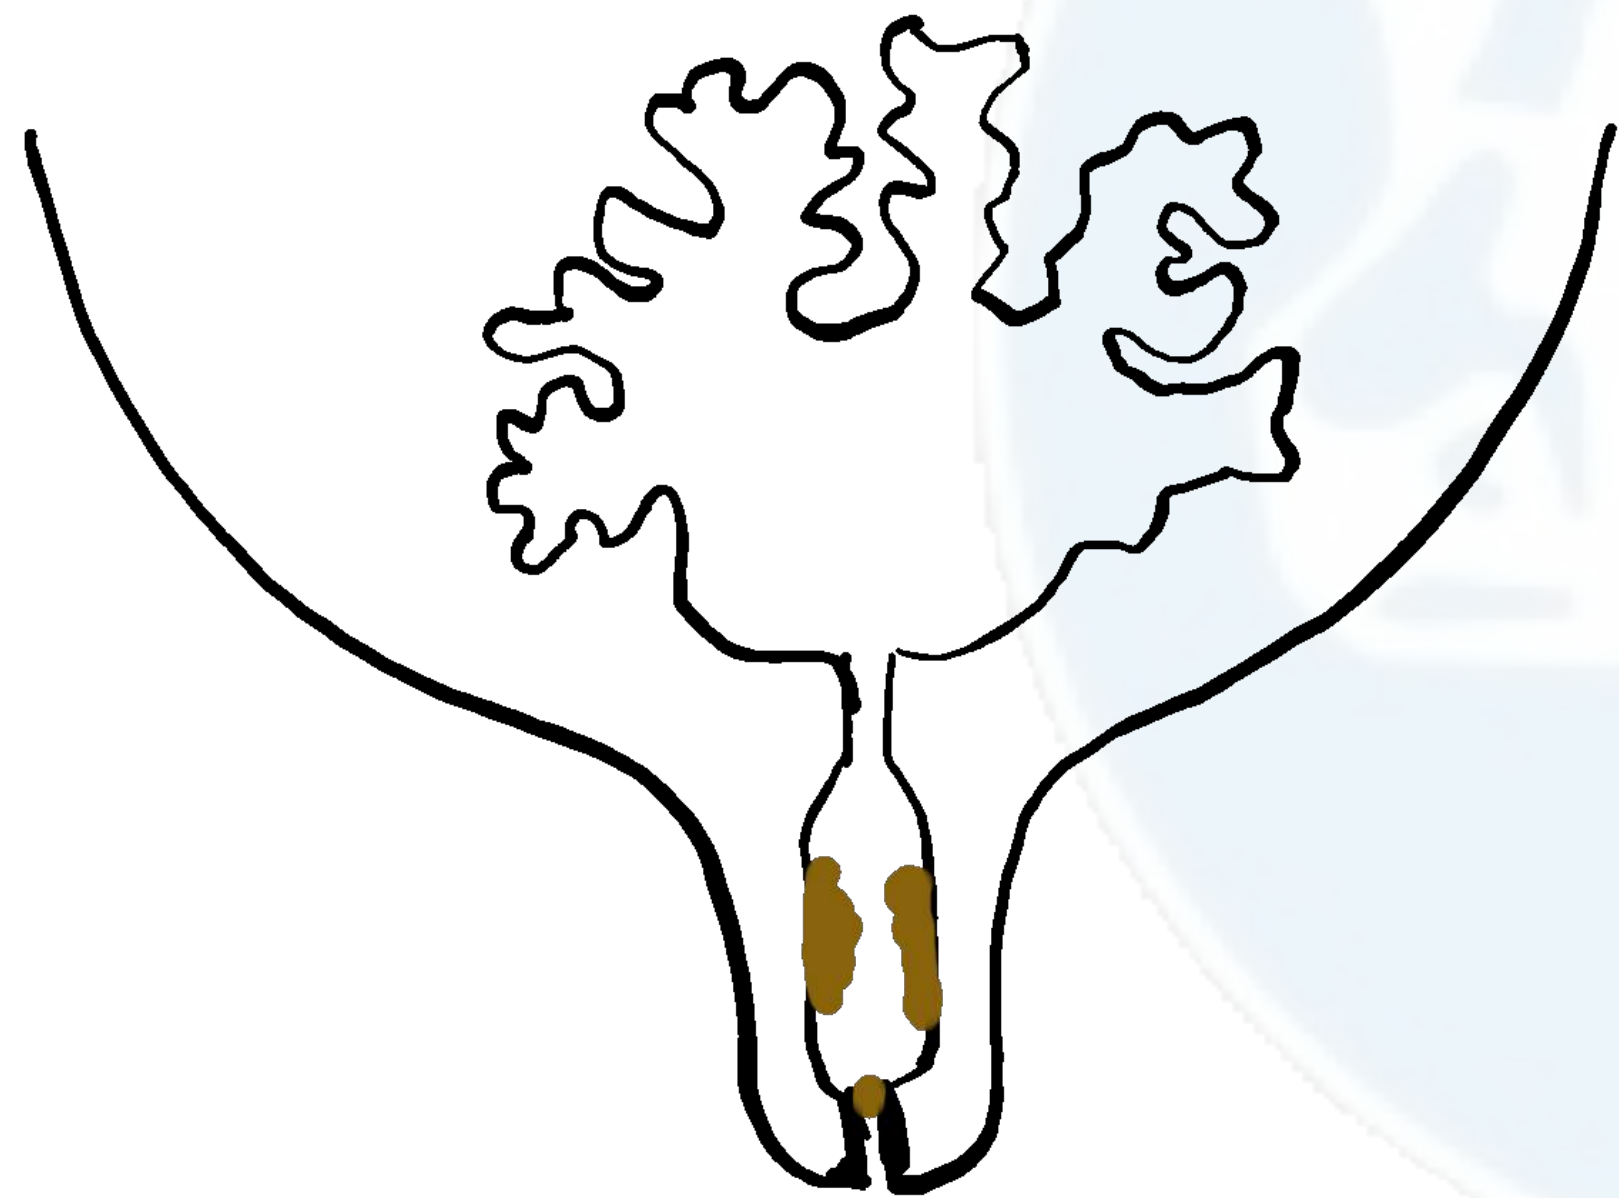

Pencil Teat

Let Down
Powder

FIBRU-LYSE

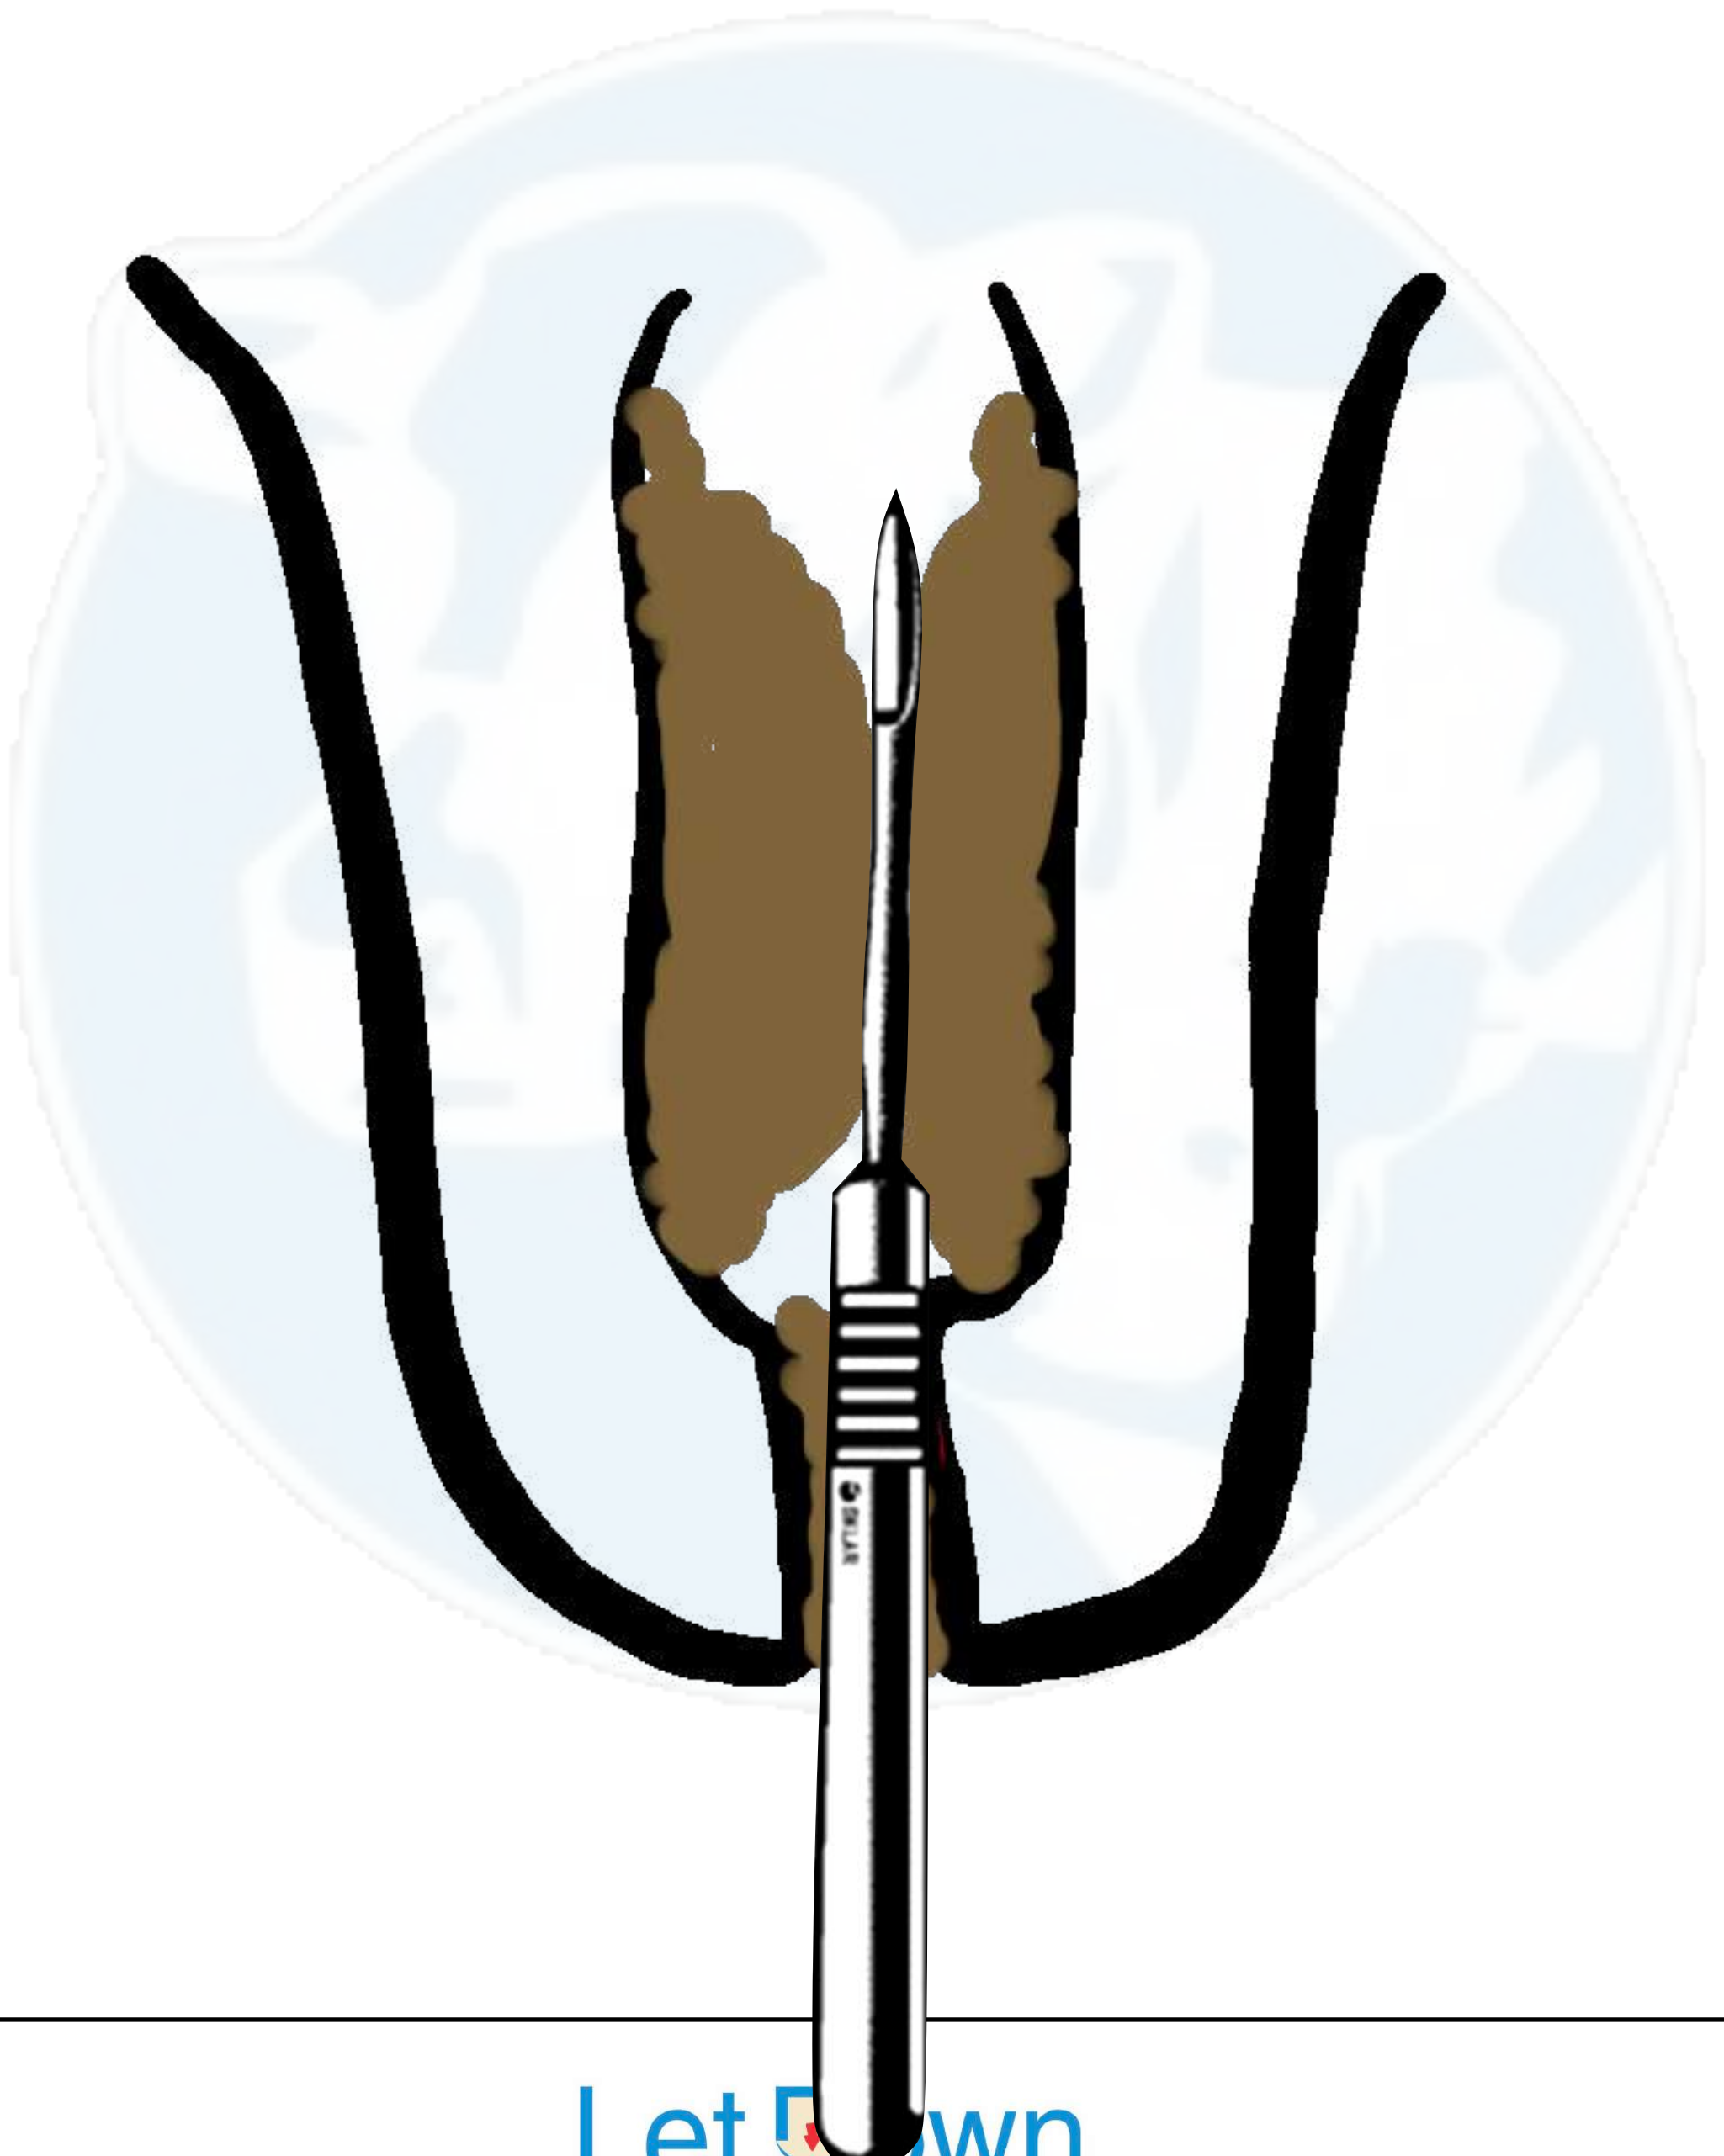

SAFTY MILK*
Forte

No Surgery Recommended

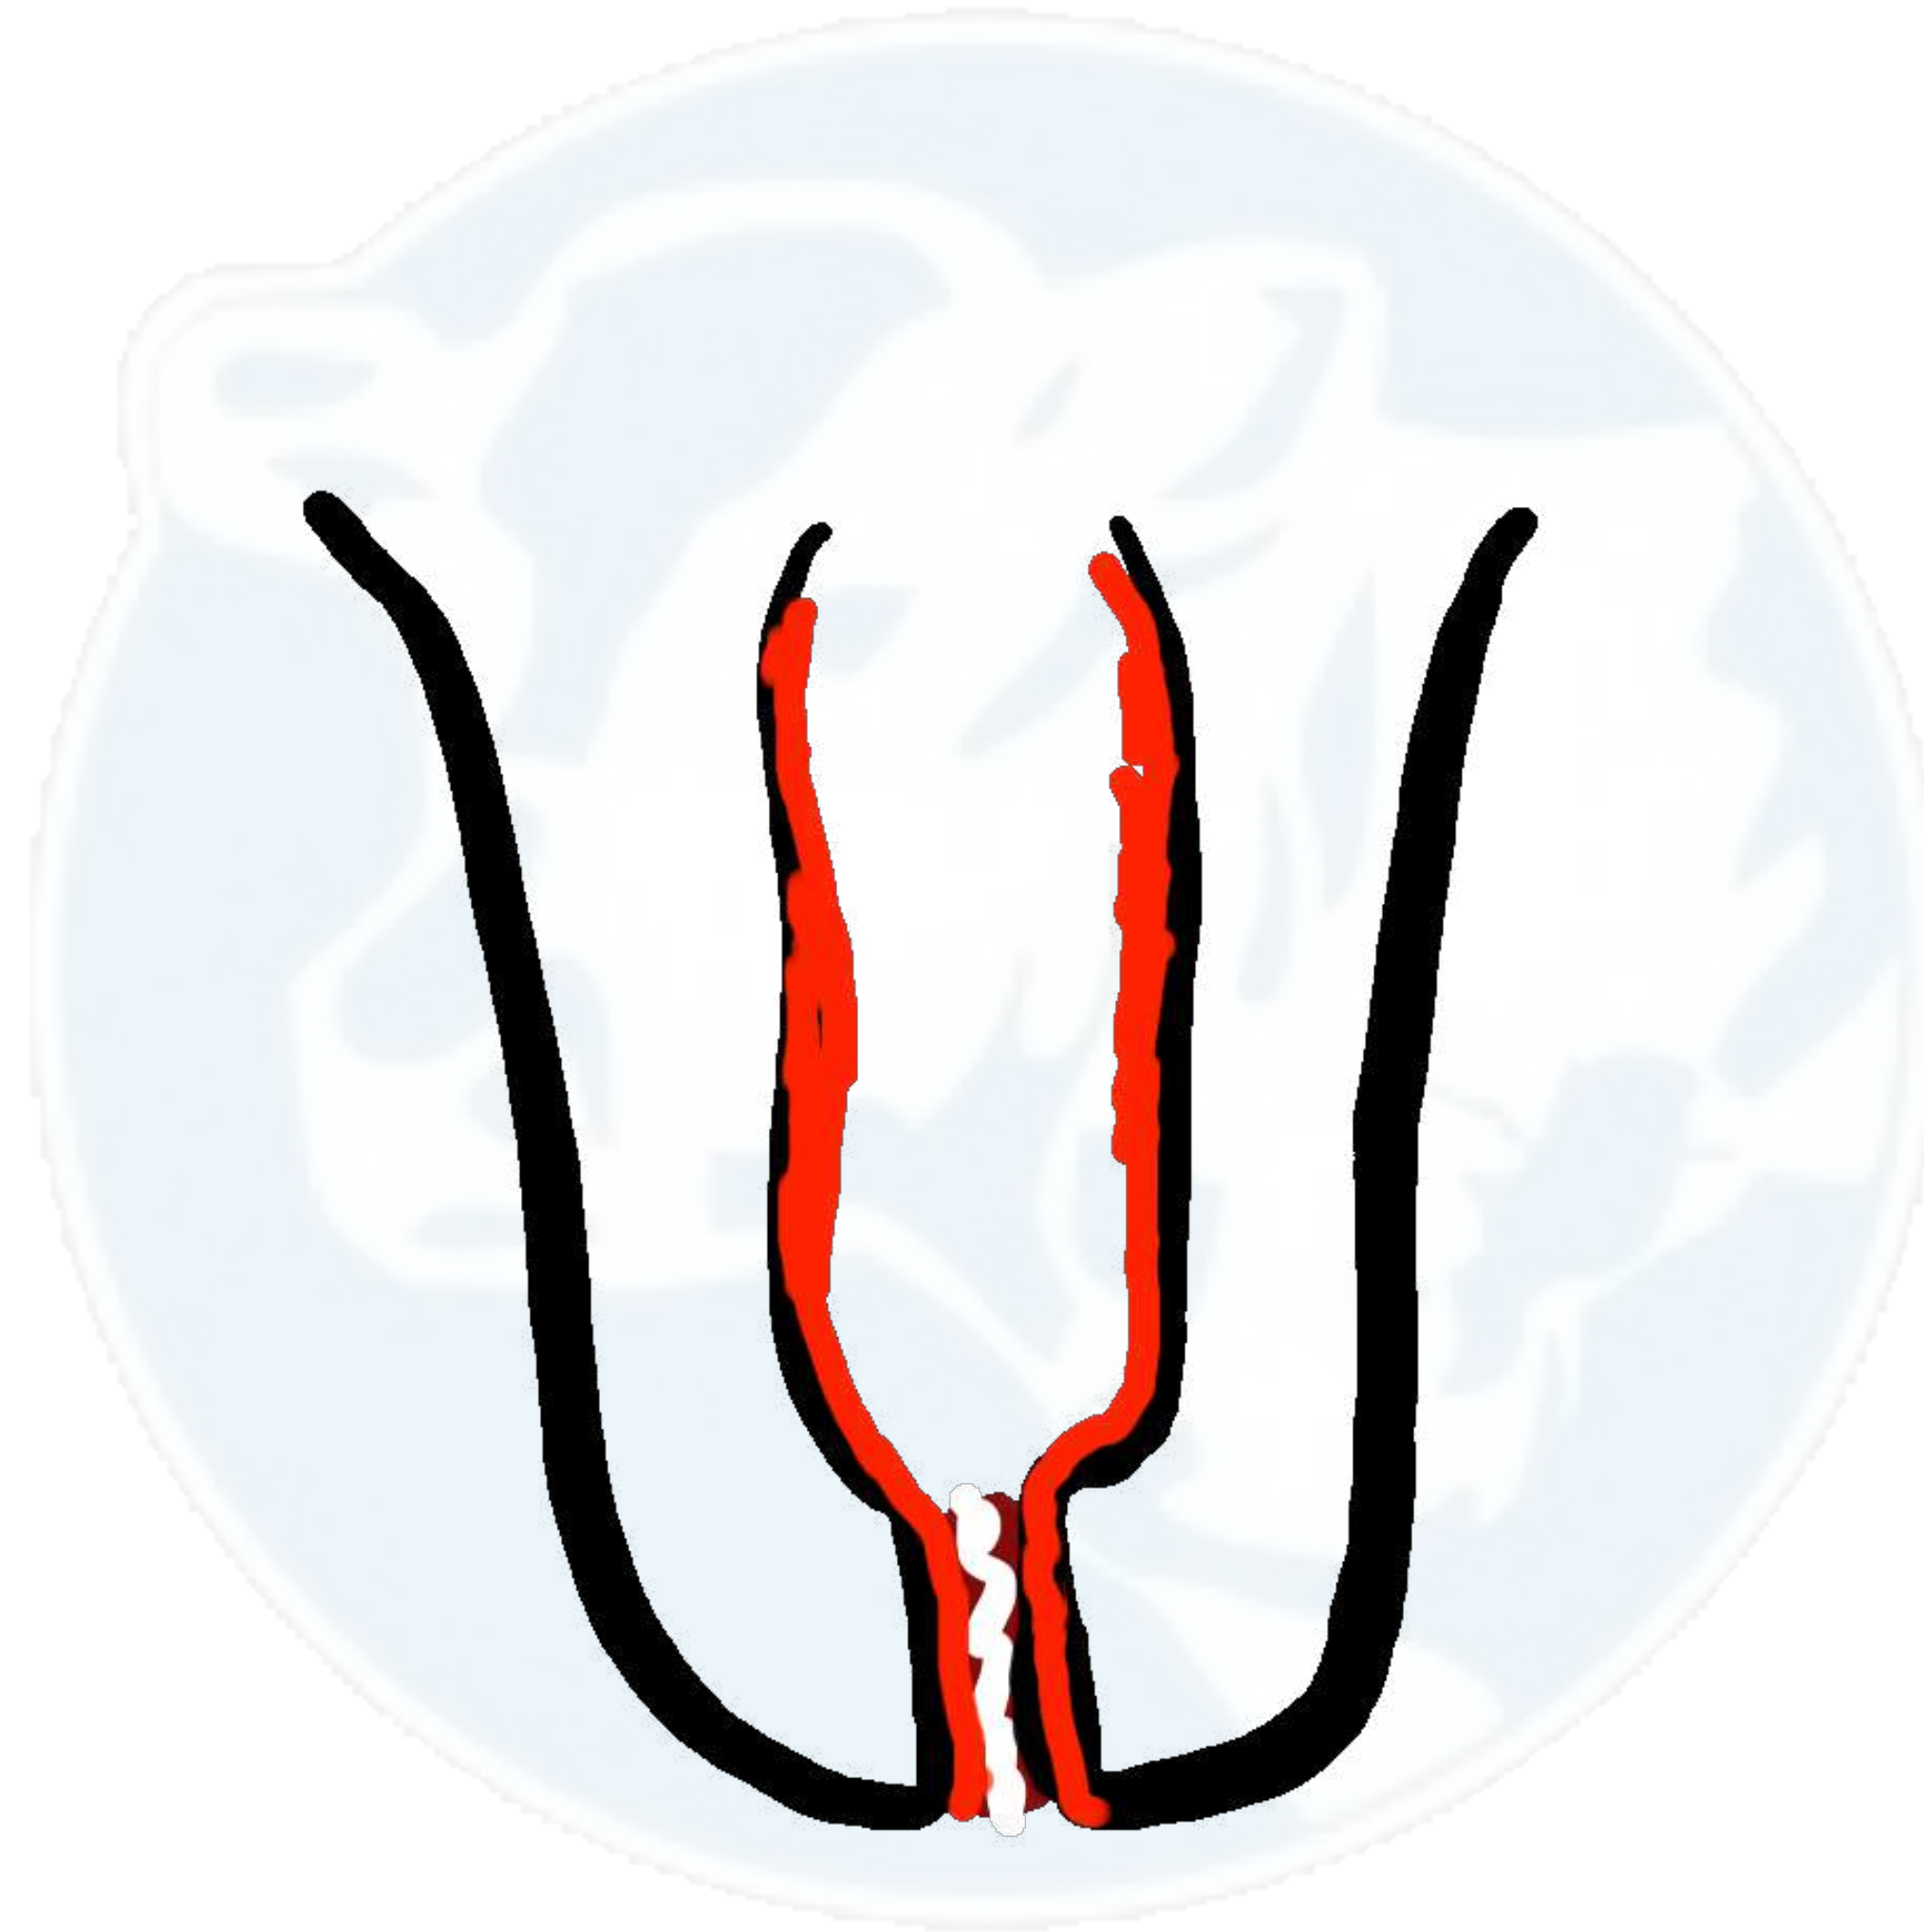

Why ????

As cutting/removing of such fibrosed tissue leads to more injuries ...

which cause more fibrosis/bigger scar formation (healing of injury)

Some times may results in permanent teat Blocking/ stenosis

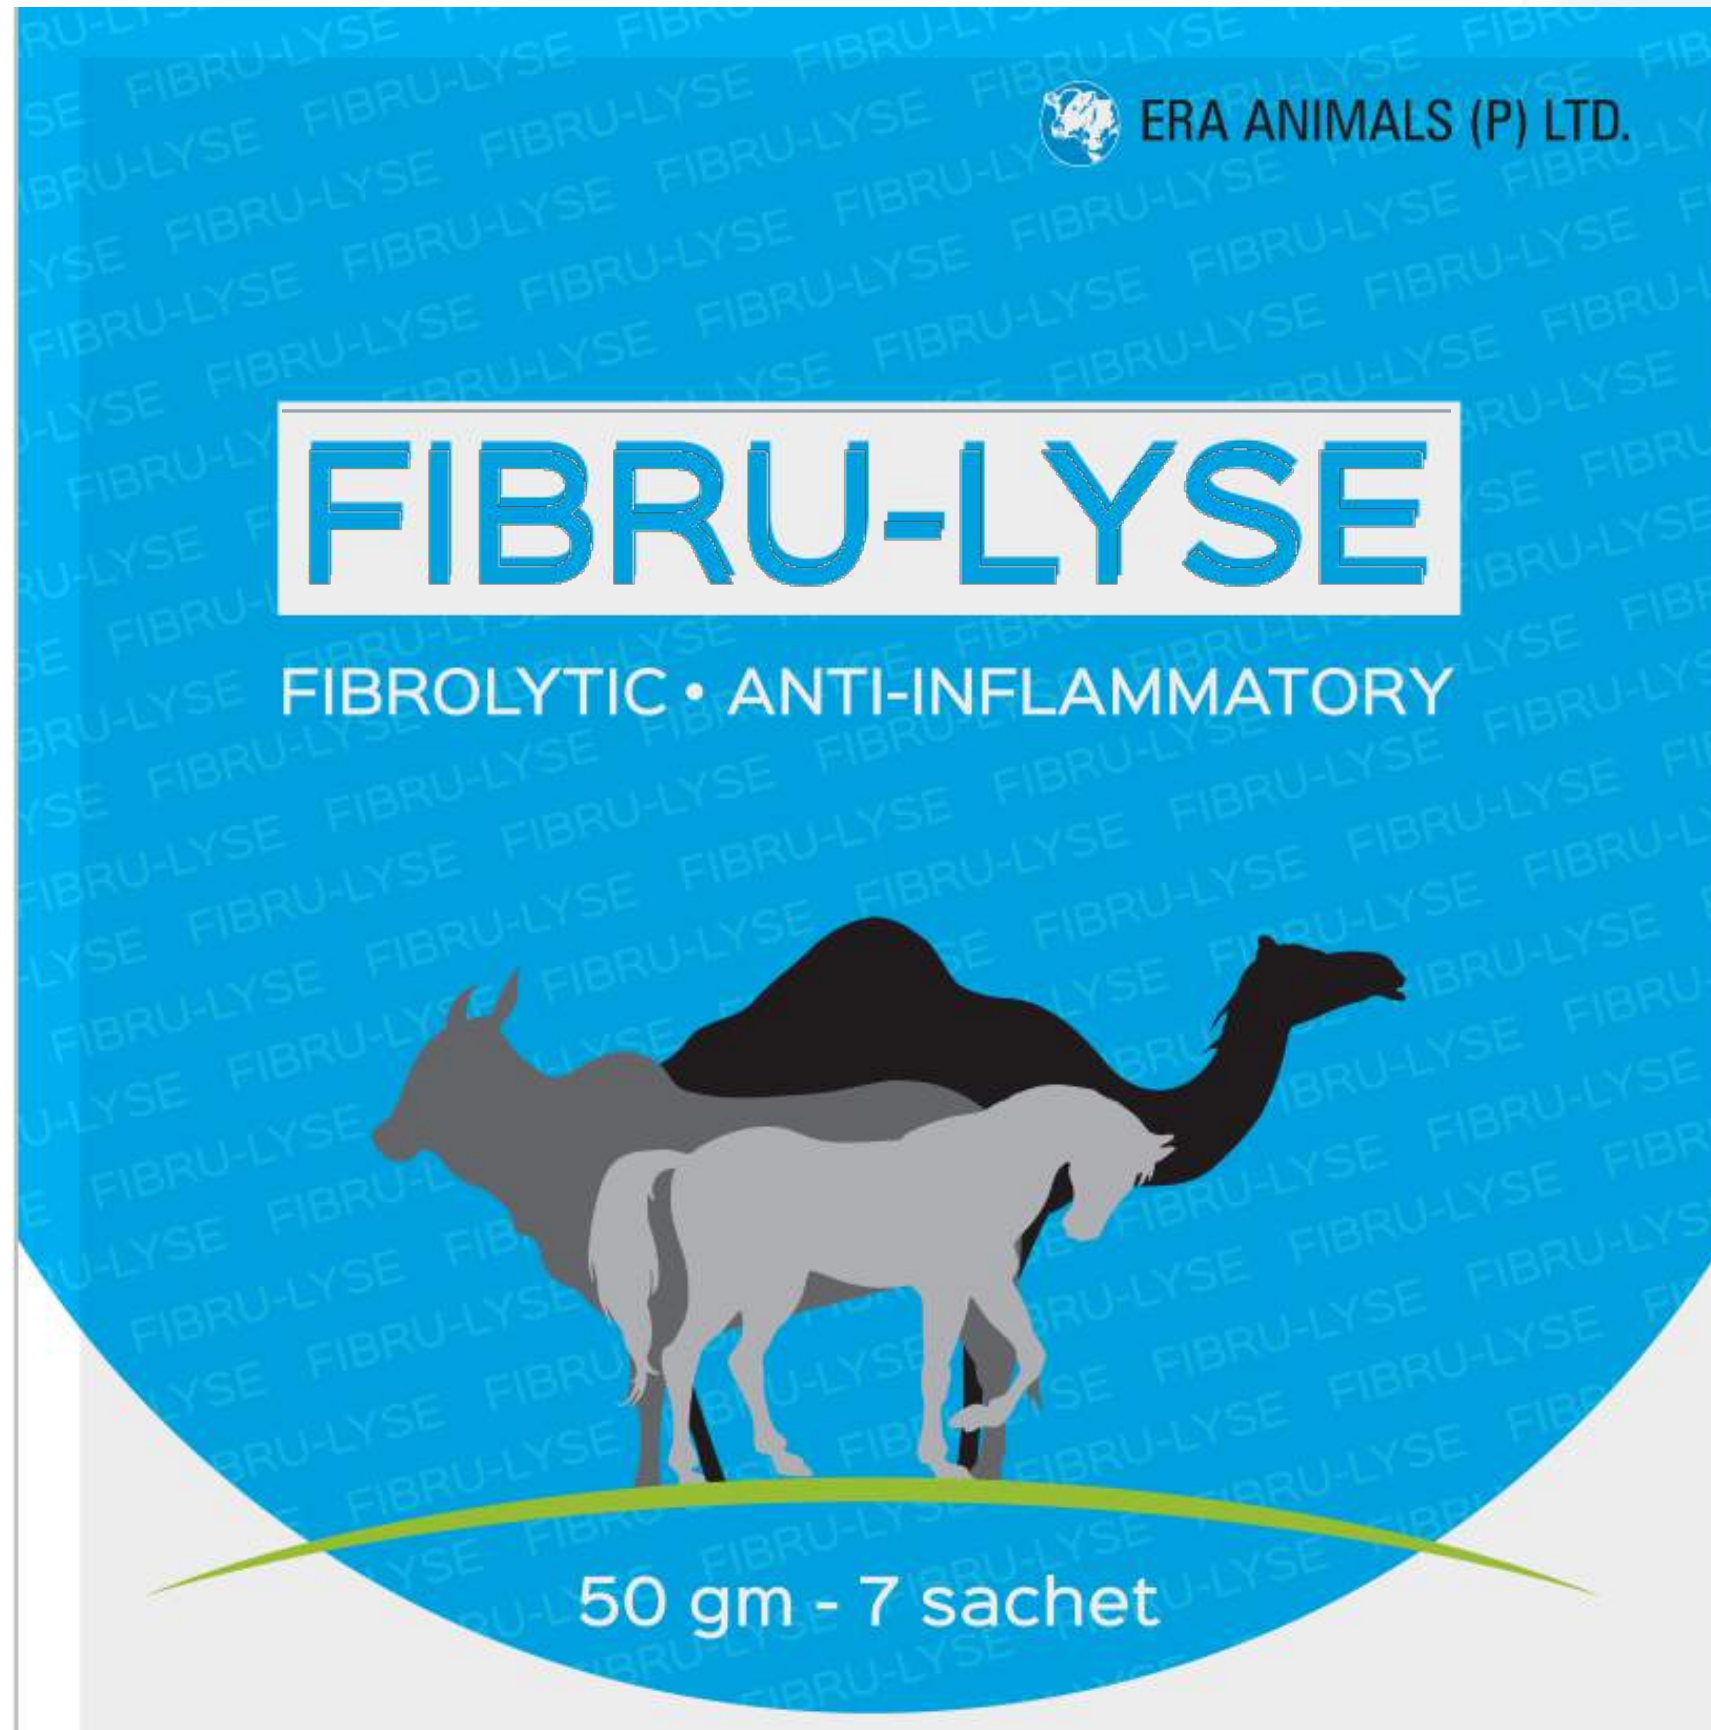

1

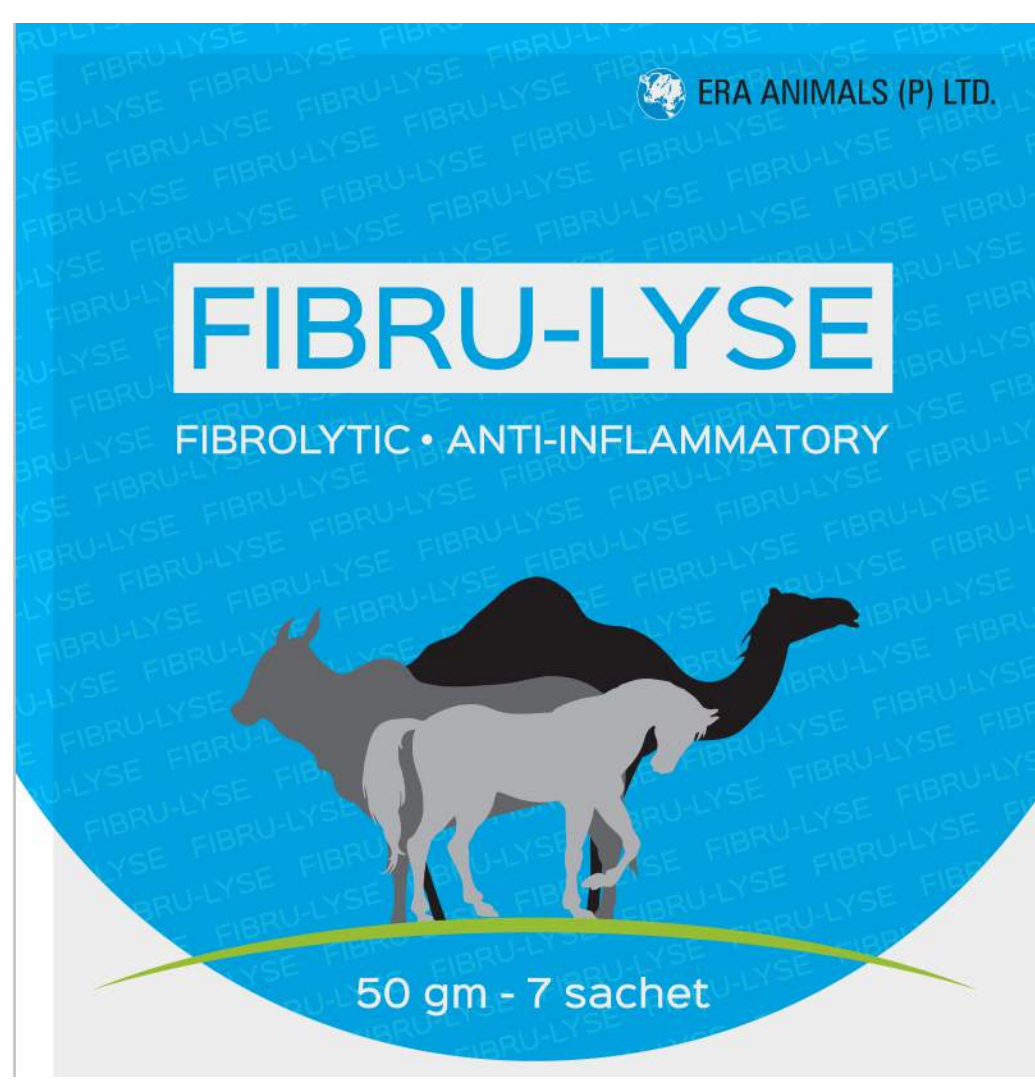

That's why milking from affected quarters became more difficult
or no milking

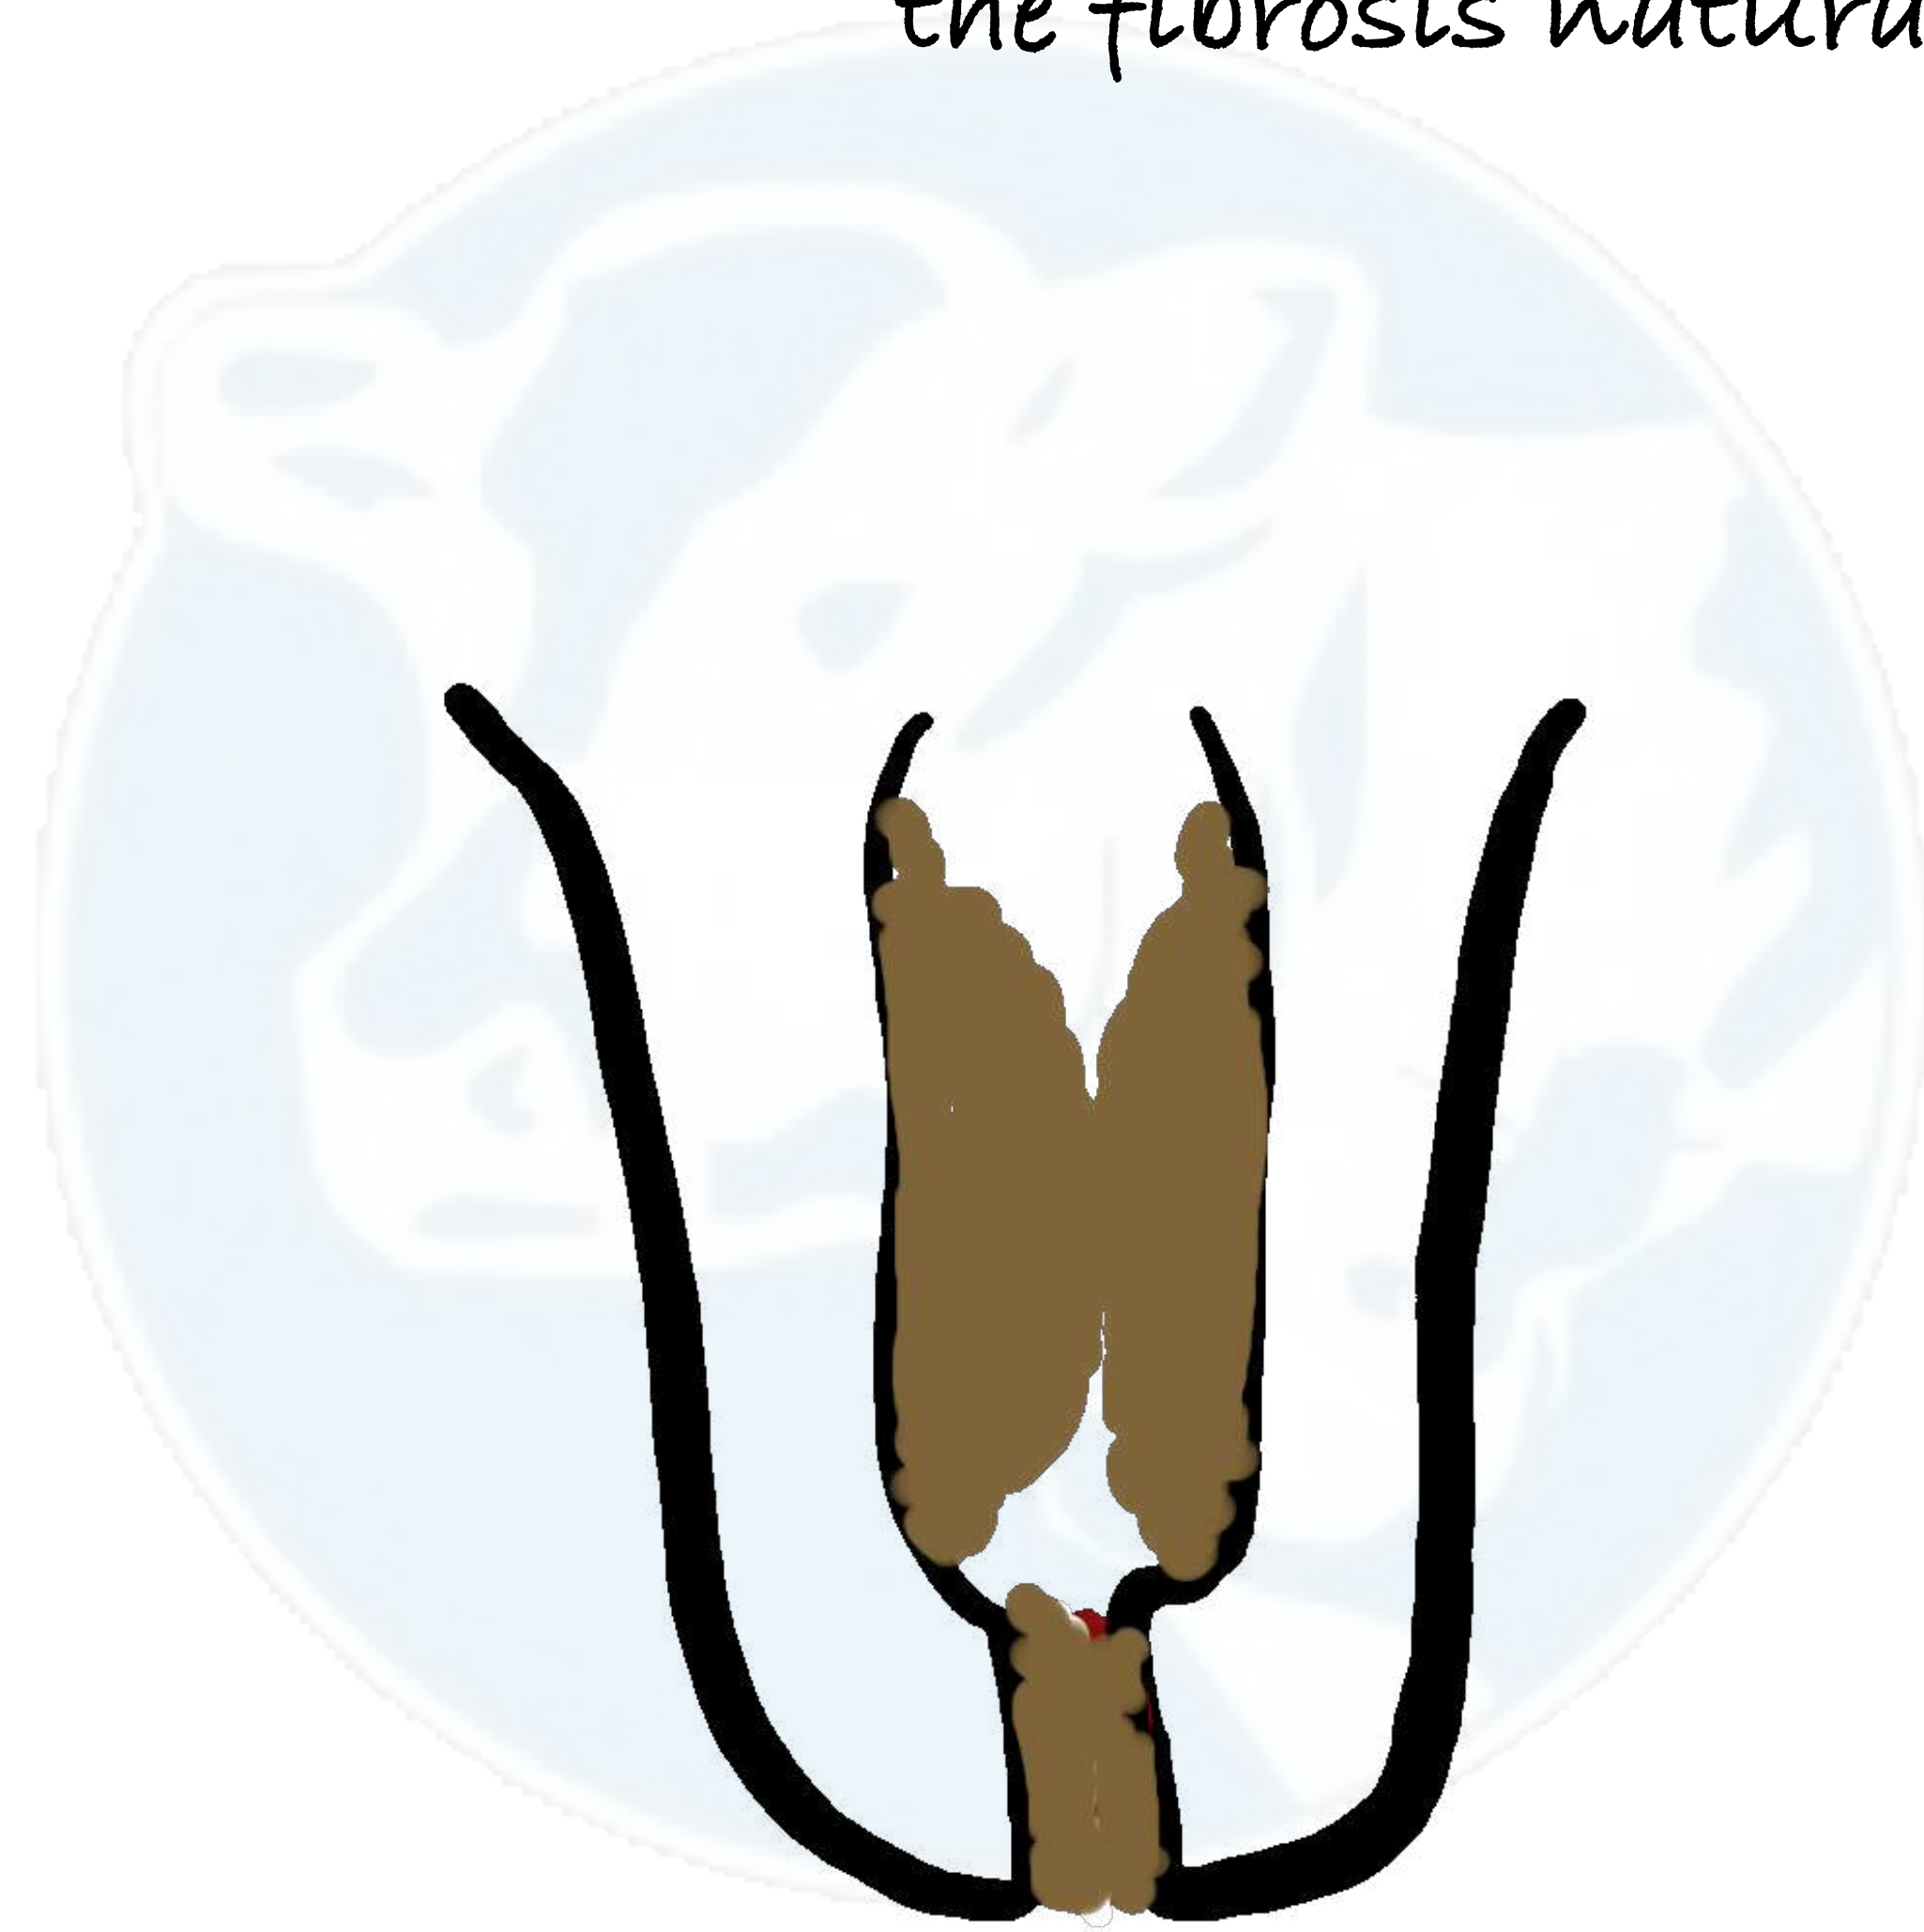

For better care of Hard Milker

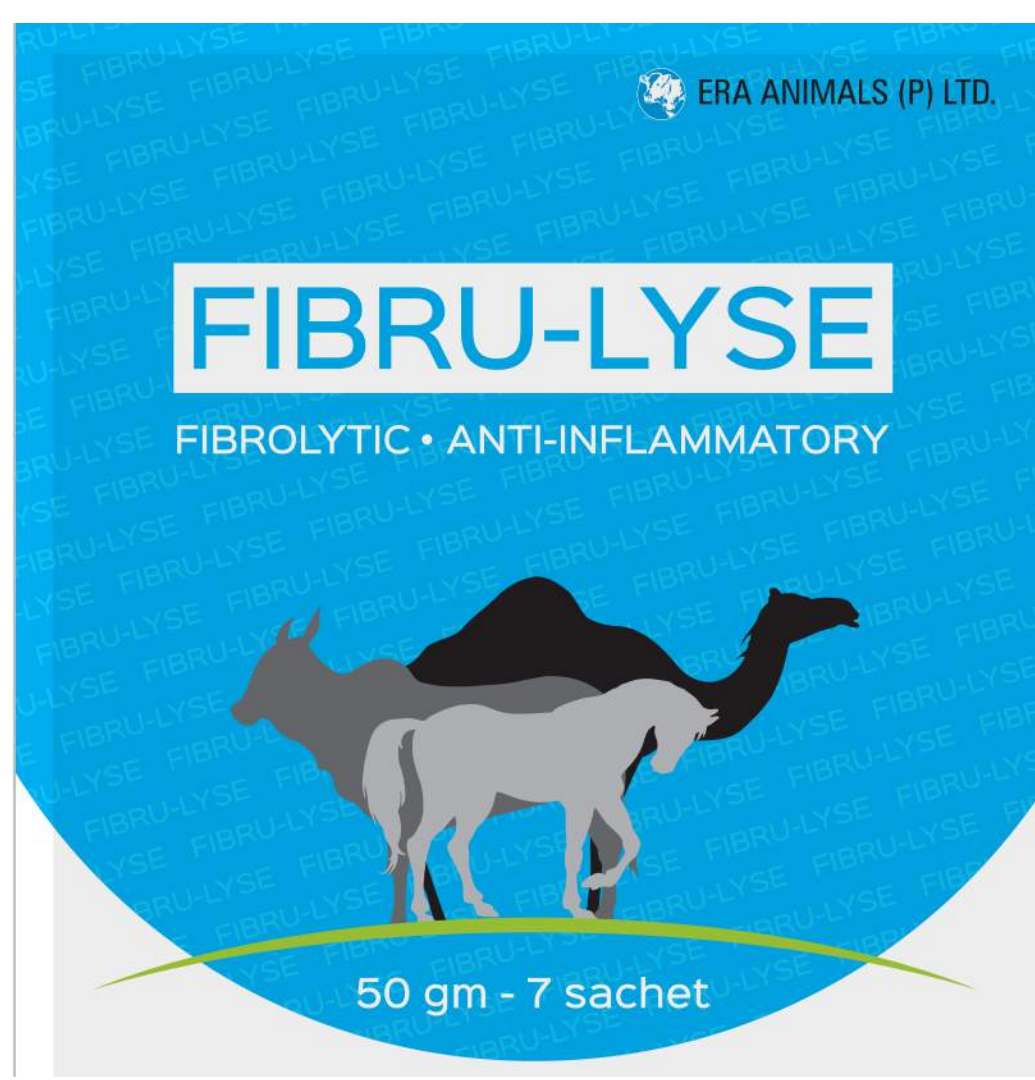

Please use

Highly effective proteolytic enzymes dissolved the fibrosis naturally

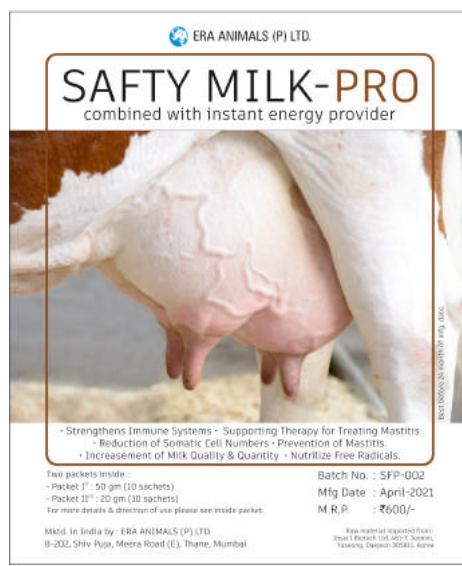

Helps in normalise the milking

So please, Let's animal owners enjoy milking
with FIBRU-LYSE
